

Highly skilled and motivated Senior Full-Stack Developer with 8 years of experience in designing and implementing complex web applications. Proven track record of successfully leading development teams and delivering high-quality software solutions. Adept at utilizing a wide range of technologies and frameworks to drive innovation and improve user experience.

Experience

2020-03
- 2023-05

Senior Full Stack Developer | Mobile Developer

Povio, United States

- Designed and developed responsive Web/Mobile Platform UIs using React, Typescript, Angular, and Node.js.
- Collaborated with cross-functional teams to gather requirements and deliver high-quality software solutions.
- Architected and designed cross-platform mobile apps using React Native. Integrated RESTful APIs and worked with databases to manage data and ensure data integrity.
- Developed reusable components using React, Typescript, Redux, and Hooks.
- Used Gatsby.js and Next.js for server-side rendering, improving performance and SEO.
- Built user interfaces and business logic for web apps based on Vue 3 and TypeScript.
- Collaborated with UX/UI designers to implement visually appealing and intuitive interfaces.
- Designed and implemented DevOps procedures for AWS infrastructure (EC2, Lambda, S3).
- Experience with Scala, Java, Python, React, Node.js, AWS, and GraphQL.
- Developed reusable components using React, Typescript, Redux, and Hooks.
- Worked with Agile software lifecycle methodologies.
- Led the frontend development team in building responsive and user-friendly web interfaces using React and Angular.
- Contributed to open-source Flutter projects, such as the Flutter News Toolkit, camera, and flutter_svg plugins.

2017-06
- 2020-02

Full Stack Developer | Frontend Developer

Potato, United Kingdom

- Developed and shipped highly interactive web and mobile solutions using React, React Native, Redux, and Jest.
- Conducted mobile application development using React Native with a focus on usability and accessibility.
- Reduced development effort by 30% through re-architecting the product using 100% JavaScript (Node.js, React, Angular).
- Developed a Microsoft Word plugin with Angular and integrated it into systems.

Glade Valley, North Carolina(NC)

Skills

- HTML/CSS
- JavaScript
- TypeScript
- Python
- Java
- React
- React Native
- Angular
- Vue.js
- Redux
- Hooks
- TailwindCSS
- Material UI/Chakra UI
- Node.js
- Express
- Laravel
- Django
- Spring Boot
- MySQL
- MongoDB
- PostgreSQL
- Firebase
- Git
- AWS
- Azure
- Jest
- Mocha
- Jenkins
- Docker

Experience

- Developed custom e-commerce shops and websites using technologies like Vue.js, and Nuxt.js.
- Implemented state management and asynchronous API integration using NgRx and RxJS operators.
- Developed solutions based on Python technical stack using RPC, QT, Apache, WSGI, and Relational databases.
- Added support for camera on Flutter Web, including requesting available web cameras, capturing pictures and videos, and controlling camera flash and zoom.
- Created native mobile applications for iOS and Android platforms using Swift and Kotlin.
- Built LAMP stack web applications using MVC PHP frameworks such as Laravel and Codeigniter.
- Implemented and enhanced CRUD operations using the MVC architecture of the Laravel framework.

2015-07
- 2017-05

Junior Full Stack Developer | Frontend Developer

Code UpScale, United States

- Designed and implemented a complex financial analytics dashboard using React, Node.js, and PostgreSQL.
- Developed dynamic front-end applications using TailwindCSS, React, and Redux to validate user input and provide responsive feedback.
- Created React pages with Tailwind CSS, Material UI, and Chakra UI.
- Refactored backends for e-commerce websites using Laravel.
- Built LAMP stack web applications using MVC PHP frameworks such as Laravel and Codeigniter.
- Implemented and enhanced CRUD operations using the MVC architecture of the Laravel framework.
- Integrated payment gateways into web platforms using Laravel and VueJS.
- Developed and managed high throughput databases and applications in Node.js backend.
- Wrote effective APIs using standards like OpenAPI with Node.js and Express.
- Designed and developed databases using MySQL, MongoDB, PostgreSQL, and Firebase.
- Gained proficiency in React, Typescript, and Node.js, and developed e-commerce and CRM projects.
- Developed single-page Angular applications using Angular routers and modules.
- Implemented state management using NGRX to manage the overall application state.

Education

Baruch College

Bachelor's degree, Computer Science

September 2011 – June 2015
