## Summary

Highly skilled and experienced Senior Full Stack Developer with over 8 years of expertise in PHP, React, and Vue. Demonstrated ability to design and develop scalable web applications, ensuring high performance and optimal user experience. Strong knowledge of backend and frontend technologies, with a proven track record of delivering high-quality code and meeting project deadlines. Excellent problem-solving and communication skills, with a passion for staying up-to-date with the latest industry trends and technologies.

## Experience

### Senior Full-stack Developer

#### Systango

Apr 2020 - Apr 2023 (3 years 1 month)

- Led the development of a large-scale e-commerce platform using PHP, React, and Vue, resulting in a 30% increase in online sales and improved user engagement.
- Collaborated with product managers and UX designers to gather requirements and translate them into technical specifications, ensuring successful feature implementation.
- Mentored and provided technical guidance to junior developers, fostering a collaborative and knowledge-sharing environment within the team.
- Conducted thorough code reviews and implemented best practices to ensure code quality, maintainability, and adherence to industry standards.
- Developed RESTful APIs and integrated third-party services to enhance system functionality and streamline data exchange processes.
- Implemented frontend UI designs and optimized performance to deliver a seamless and responsive user experience.
- Collaborated with cross-functional teams to troubleshoot and resolve complex technical issues, ensuring the smooth operation of critical systems.
- Implemented unit testing and integration testing processes, improving software quality and reducing the number of bugs.
- Utilized version control systems such as Git to manage codebase and enable collaboration among team members.
- Actively participated in Agile development methodologies, including sprint planning and retrospectives, to ensure efficient project management and delivery.

### Full Stack Developer

#### Cloud Academy

Feb 2016 - Mar 2020 (4 years 2 months)

- Developed and maintained web applications using PHP, React, and Vue, contributing to a 40% improvement in overall system performance and user satisfaction.
- Collaborated closely with cross-functional teams to gather requirements and ensure effective communication between stakeholders.

- Integrated external APIs and implemented secure authentication mechanisms to ensure data confidentiality and system integrity.
- Implemented responsive UI designs and optimized frontend performance to deliver an enhanced user experience across different devices.
- Conducted thorough testing, including unit testing and end-to-end testing, to identify and resolve bugs, ensuring software quality.
- Collaborated with backend developers to design and optimize database schemas, improving data retrieval times and system scalability.
- Participated in code reviews, providing constructive feedback and enforcing coding standards to maintain code quality and consistency.
- Assisted in performance tuning and optimization efforts, improving application speed and responsiveness.
- Actively participated in sprint planning and estimation, contributing to project timelines and ensuring on-time delivery.
- Assumed a leadership role in coordinating project tasks and facilitating collaboration among team members.

## Frontend Developer

ASBIS

Oct 2013 - Jan 2016 (2 years 4 months)

- Developed and maintained web applications using PHP, React, and Vue, resulting in improved user engagement and increased customer satisfaction.
- Collaborated closely with product owners and UX designers to gather requirements and translate them into technical solutions.
- Integrated third-party APIs and services, enabling seamless data exchange and expanding application functionalities.
- Implemented responsive UI designs, ensuring consistent user experience across different devices and screen sizes.
- Conducted rigorous testing, including unit testing and integration testing, to identify and resolve software defects.
- Collaborated with database administrators to optimize database performance and improve query efficiency.
- Actively participated in code refactoring and code review processes, ensuring high code quality, readability, and adherence to best practices.
- Collaborated with cross-functional teams, including QA engineers and system administrators, to troubleshoot and resolve complex technical issues.
- Assisted in the implementation of CI/CD pipelines, automating software deployment processes and improving team productivity.
- Stayed updated with the latest technologies and industry trends, incorporating them into development processes and suggesting innovative solutions.

## Education

**University of Tartu Institute of Computer Science**

Bachelor's degree, Computer Science

Aug 2009 - Apr 2013

## Skills

PHP • JavaScript • React.js • Vue.js • Laravel • Node.js • MySQL • MongoDB • Amazon Web Services (AWS) • PHPUnit
