## WORK EXPERIENCE

---

### SENIOR FULL STACK DEVELOPER | MOBILE DEVELOPER

Starbucks, United Kingdom

Mar 2020 – present (3 years 2 months)

- Developed and shipped highly interactive web and mobile solutions using React, React Native, Redux, and Jest.
- Conducted mobile application development using React Native with a focus on usability and accessibility.
- Reduced development effort by 40% through re-architecting the product using Node.js, React, and Angular.
- Developed custom e-commerce shops and websites using technologies like Vue.js, and Nuxt.js.
- Implemented state management and asynchronous API integration using NgRx and RxJS operators.
- Gained proficiency in React, Typescript, and Node.js, and developed e-commerce and CRM projects.
- Developed solutions based on Python technical stack using RPC, QT, Apache, WSGI, and Relational databases.
- Created native mobile applications for iOS and Android platforms using Swift and Kotlin.
- Built LAMP stack web applications using MVC PHP frameworks such as Laravel and Codeigniter.
- Worked with Agile software lifecycle methodologies.

## **FULL STACK DEVELOPER | FRONTEND DEVELOPER**

BitStone, Romania

Jun 2017 – Feb 2020 (2 years 8 months)

- Gained 2+ years of commercial experience with Nest.js while working on a large-scale project.
- Designed and developed responsive Web/Mobile Platform UIs using React, Typescript, Angular, and Node.js.
- Collaborated with cross-functional teams to gather requirements and deliver high-quality software solutions.
- Architected and designed cross-platform mobile apps using React Native.
- Integrated RESTful APIs and worked with databases to manage data and ensure data integrity.
- Developed reusable components using React, Typescript, Redux, and Hooks.
- Used Gatsby.js and Next.js for server-side rendering, improving performance and SEO.
- Built user interfaces and business logic for web apps based on Vue 3 and TypeScript.
- Designed and implemented DevOps procedures for AWS infrastructure (EC2, Lambda, S3).
- Experience with Scala, Java, Python, React, Node.js, AWS, and GraphQL.

## **FULL STACK DEVELOPER**

Webonise, United States

Jul 2015 – May 2017 (1 year 10 months)

- Designed and implemented a complex financial analytics dashboard using React, Node.js, and PostgreSQL.
- Developed dynamic front-end applications using TailwindCSS, React, and Redux to validate user input and provide responsive feedback.
- Created React pages with Tailwind CSS, Material UI, and Chakra UI.
- Refactored backends for e-commerce websites using Laravel.
- Integrated payment gateways into web platforms using Laravel and VueJS.
- Developed and managed high throughput databases and applications in Node.js backend.
- Wrote effective APIs using standards like OpenAPI with Node.js and Express.
- Designed and developed databases using MySQL, MongoDB, PostgreSQL, and Firebase.
- Gained proficiency in React, Typescript, and Node.js, and developed e-commerce and CRM projects.
- Developed single-page Angular applications using Angular routers and modules.
- Implemented state management using NGRX to manage the overall application state.

## **EDUCATION**

---

### **Auburn University**

Bachelor's degree, Computer Science

Sep 2011 – Jun 2015
