Express.js	Slack
SQL	AWS
MongoDB	
Firebase	
Git	
Figma	

### EDUCATION

Bachelor's degree, Computer Science  
**Slovak university of agriculture**  
September 2011 - June 2015

### PROFILE

A highly skilled and experienced senior web developer with 8 years of expertise in designing and developing innovative web solutions. Seeking a challenging position to contribute my technical proficiency, leadership abilities, and passion for creating exceptional user experiences.

### WORK EXPERIENCE

#### Senior Web Developer

Povio

March 2020 - May 2023

- Led a team of 7 developers in the design, development, and deployment of web applications, adhering to best practices and project timelines.
- Developed and maintained responsive and user-friendly websites using **HTML**, **CSS**, **JavaScript**, and **React** framework.
- Implemented server-side logic and database integration using technologies such as **Node.js**, **Express.js**, and **MongoDB**.
- Led the development of a product dashboard that integrated **real-time** data from multiple sources, resulting in a 25% increase in operational efficiency and a 20% reduction in data input errors.
- Participated in code **reviews**, providing constructive feedback and suggestions for code improvements to maintain code quality and best practices.

#### Web Developer

midudev

June 2017 - February 2020

- Utilized React to refactor and enhance existing web applications, improving their **user interfaces** and code **maintainability**.
- Created and optimized **SQL** queries to retrieve and manipulate data from databases, integrating React components with back-end APIs for data retrieval and display.
- Led the migration of the application into a **Microservice** architecture using **Amazon Web Services**, resulting in a 40% improvement in scalability, performance, and reliability.
- Collaborated with **cross-functional** teams to gather requirements and translate them into technical specifications, leveraging React components for rapid development.

#### Web Developer

Vention

July 2015 - May 2017

- Implemented **responsive designs** and optimized websites for various screen sizes and devices, utilizing React's flexible layout capabilities.
- Conducted thorough **testing** and **debugging** of React components, ensuring high-quality and bug-free code.
- Implemented efficient **RESTful** web services for handling large data transfers, reducing server load by 50% and improving application performance by 25%.
