MARKO JOHNSON

SENIOR WEB DEVELOPER

ABOUT ME

Highly skilled and experienced Senior Web Developer with 8 years of expertise in designing, developing, and maintaining dynamic web applications. Proficient in a wide range of programming languages, frameworks, and technologies, ensuring efficient and scalable code.

Frejgatan 73, Stockholm, Stockholm County, Sweden

EDUCATION

Bachelors Degree in Computer Science

Stockholm University

September 2012 - June 2015

Auston Institute

September 2011 - June 2012

SKILLS

- HTML
- CSS
- JavaScript
- TypeScript
- PHP
- React
- Angular.js
- Vue.js
- Node.js
- Express.js
- Laravel
- SQL
- MongoDB
- MySQL
- Git
- GitHub
- AWS
- RESTful API
- Jest
- Scrum
- Kanban
- Jira
- Webpack
- Docker

Senior Web Developer

WORK EXPERIENCE

9elements

March 2020 - May 2023

- Led a team of developers in designing and implementing a scalable web application using **Node.js**, **React**, and **Redux**, resulting in a 30% increase in user engagement and a 20% improvement in page load times
- Integrated third-party APIs and developed **RESTful** services, enabling seamless data integration and expanding application capabilities.
- Led the migration of the application into a **Microservice** architecture using **Amazon Web Services**, resulting in a 40% improvement in scalability, performance, and reliability.

Web Developer

Makers' Den

June 2017 - February 2020

- Designed and developed customer and admin applications using React, Node.js, Redux, React Hooks, Bootstrap, Typescript, and ES6, resulting in a 30% increase in user satisfaction and a 20% increase in user adoption.
- Worked closely with UI/UX designers to implement visually appealing and user-friendly interfaces, improving overall user experience.
- Actively participated in Agile development methodologies, including daily stand-ups, sprint planning, and retrospectives, to ensure efficient project management and continuous improvement.

Junior Web Developer

NoA Ignite Sweden

July 2015 - February 2020

- Developed and maintained a real-time messaging platform using React, Node.js, and Socket.io, significantly improving communication and collaboration among users.
- Optimized application performance through code refactoring, caching strategies, and database query optimizations, resulting in a 30% decrease in response time and improved user experience.
- Utilized version control systems, such as **Git**, for efficient code management and collaboration within development teams.
