Summary

Experienced Senior Frontend Developer with over 10 years of experience working on various web projects. Proficient in front-end development technologies and frameworks such as HTML, CSS, JavaScript, React, Angular, and Vue.js. Skilled in building responsive and user-friendly web interfaces. Strong team player and collaborator, with excellent communication and problem-solving skills.

Experience

Senior Frontend Developer

Systango

Mar 2020 - Mar 2023 (3 years 1 month)
• Expert in HTML, CSS, and JavaScript, with a focus on building responsive and accessible web interfaces.
• Experienced in using React and Redux to build complex web applications with advanced state management.
• Skilled in creating reusable and scalable UI components using React and styled-components.
• Proficient in integrating web applications with RESTful APIs and GraphQL.
• Knowledgeable in building web applications using server-side rendering and Next.js.
• Familiar with testing frameworks such as Jest and Enzyme for unit testing and end-to-end testing.
• Experienced in Agile development methodologies and collaboration tools such as Jira and Slack.
• Knowledgeable in version control systems such as Git and GitHub.
• Skilled in debugging and optimizing web applications for performance and scalability.
• Experienced in leading and mentoring junior developers on best practices and coding standards.
• Proficient in TypeScript and its application in React projects.
• Experienced in using AWS Amplify for serverless web application development.
• Skilled in implementing internationalization and localization in web applications.
• Knowledgeable in using Docker for containerizing web applications.
• Familiar with continuous integration and deployment pipelines using Jenkins and CircleCI.
• Experienced in using Storybook to develop and showcase UI components.
• Skilled in using CSS-in-JS libraries such as Emotion and Styled System.
• Knowledgeable in using Firebase for building real-time web applications.
• Familiar with web accessibility standards and techniques.
• Experienced in implementing Google Analytics and Tag Manager in web applications.

Frontend Developer

ChurnZero

May 2016 - Jan 2020 (3 years 9 months)
• Expert in HTML, CSS, and JavaScript, with a focus on building responsive and mobile-first web interfaces.
• Experienced in using Angular and RxJS to build complex web applications with reactive programming.
• Skilled in creating reusable and scalable UI components using Angular Material.

• Proficient in integrating web applications with RESTful APIs and WebSocket.
• Knowledgeable in building web applications using server-side rendering and Angular Universal.
• Familiar with testing frameworks such as Karma and Jasmine for unit testing and end-to-end testing.
• Experienced in Agile development methodologies and collaboration tools such as Trello and Slack.
• Knowledgeable in version control systems such as Git and Bitbucket.
• Skilled in debugging and optimizing web applications for performance and accessibility.
• Experienced in collaborating with designers and UX experts to implement designs and interactions.
• Proficient in TypeScript and its application in Angular projects.
• Experienced in using AWS Elastic Beanstalk for scalable web application deployment.
• Skilled in implementing authentication and authorization in web applications using OAuth 2.0.
• Knowledgeable in using NGINX for web server configuration and optimization.
• Familiar with GraphQL and its application in building APIs for web applications.
• Experienced in using NgRx for state management in large-scale Angular projects.
• Skilled in using CSS preprocessors such as Sass and Less.
• Knowledgeable in using Webpack for module bundling and optimization.

Frontend Developer

Clarifai

Aug 2014 - Apr 2016 (1 year 9 months)
• Expert in HTML, CSS, and JavaScript, with a focus on building visually appealing and interactive web interfaces.
• Experienced in using Vue.js and Vuex to build scalable and modular web applications.
• Skilled in creating reusable and customizable UI components using Element UI and Vuetify.
• Proficient in integrating web applications with RESTful APIs and WebSockets.
• Knowledgeable in building web applications using server-side rendering and Nuxt.js.
• Familiar with testing frameworks such as Mocha and Chai for unit testing and end-to-end testing.
• Experienced in Agile development methodologies and collaboration tools such as Asana and Zoom.
• Knowledgeable in version control systems such as Git and GitLab.
• Skilled in debugging and optimizing web applications for performance and user experience.
• Experienced in collaborating with back-end developers to integrate front-end and back-end systems.
• Proficient in TypeScript and its application in Vue.js projects.
• Experienced in using Firebase for building real-time web applications and authentication.
• Skilled in implementing dynamic and interactive data visualization using D3.js and Chart.js.
• Knowledgeable in using Netlify for continuous deployment and hosting of web applications.
• Familiar with using Headless CMS such as Contentful and Strapi for managing content in web applications.
• Experienced in using CSS frameworks such as Bootstrap and Foundation.
• Skilled in implementing client-side caching and offline capabilities using Service Workers.
• Knowledgeable in using Storyblok for building dynamic and editable web pages.
• Familiar with SEO techniques and optimization for web applications.
• Experienced in implementing user tracking and behavior analysis using Hotjar and Mixpanel.

Frontend Developer

TradeSoft Company

May 2013 - Jul 2014 (1 year 3 months)
• Expert in HTML, CSS, and JavaScript, with a focus on building modern and engaging web interfaces.
• Experienced in using React and Redux to build large-scale and complex web applications.
• Skilled in creating performant and responsive UI components using Material UI and Ant Design.

• Proficient in integrating web applications with RESTful APIs and WebSocket.
• Knowledgeable in building web applications using server-side rendering and Gatsby.js.
• Familiar with testing frameworks such as Cypress and React Testing Library for unit testing and endto-end testing.
• Experienced in Agile development methodologies and collaboration tools such as Confluence and Microsoft Teams.
• Knowledgeable in version control systems such as Git and Azure DevOps.
• Skilled in debugging and optimizing web applications for performance and accessibility.
• Experienced in collaborating with designers to implement pixel-perfect designs and animations.
• Proficient in TypeScript and its application in React projects.
• Experienced in using AWS Lambda and API Gateway for serverless web application development.
• Skilled in implementing authentication and authorization in web applications using OAuth 2.0 and JWT.
• Knowledgeable in using NGINX and Apache for web server configuration and optimization.
• Familiar with GraphQL and its application in building APIs for web applications.
• Experienced in using React Native for mobile application development.
• Skilled in using CSS preprocessors such as Styled Components and SCSS.
• Knowledgeable in using Webpack and Babel for module bundling and optimization.
• Familiar with WebRTC and its application in building real-time communication in web applications.
• Experienced in implementing website performance optimization using tools such as Lighthouse and PageSpeed Insights.

Education

University of Tartu Institute of Computer Science

Bachelor's degree, Computer Science

Aug 2009 - Apr 2013

Skills

JavaScript • TypeScript • HTML • Vue.js • Next.js • AngularJS • React.js • Node.js • Cascading Style Sheets (CSS) • REST APIs
